

CyberSecDome

CyberSecDome 2nd Info Day & Open Call launch event

The CyberSecDome project invites you to participate in the 2nd Info Day & Open Call launch event. This event will take place in Athens, Greece, on December 4, 2024, from 15:00 to 18:30 EET at the Golden Age Hotel, located at Michalakopoulou 57, Athina 115 28.

[CyberSecDome](#) is a visionary European project that combines AI and Virtual Reality technologies to revolutionize cybersecurity. The project's mission is to predict and efficiently respond to cybersecurity threats, safeguarding digital infrastructures. With a focus on situational awareness, it offers real-time insights into incidents and risks, fostering collaborative responses across stakeholders.

The event aims at presenting the main objectives of the project, elaborating on the innovation capacities. It will also showcase attack scenario within digital ecosystem.

During the event, a dedicated session for the CyberSecDome Open Call launch will be held. **The CyberSecDome Open Call aims to involve cross-sector and cross-border participants to accelerate the integration of advanced cybersecurity solutions into digital systems, enhancing trust, security, and resilience in the digital ecosystem.**

CyberSecDome Open Call Objectives

The programme will be conducted in two rounds, each aligned with the project's development milestones:

- **Round 1:** Focuses on testing the early-stage CyberSecDome prototype, allowing participants to validate the project's capabilities in controlled environments. This round aims to gather feedback from real-world use cases and improve the system's design for subsequent releases. Participants in Round 1 will play a critical role in shaping the development of the CyberSecDome platform and its applications for cybersecurity across Europe.
- **Round 2:** Targets more advanced use cases, focusing on testing the final prototype in diverse, real-world infrastructures. Participants in this round will play a crucial role in demonstrating the system's effectiveness and contributing to the final refinement before full deployment.

Funding Details

The total budget for the CyberSecDome Open Call is **€1.2 million**, distributed across the two rounds as follows:

- ✓ **Round 1:** A budget of **€420,000** is allocated, with a maximum of **€120,000** per project. Micro, small, and medium-sized enterprises (SMEs) can request up to 100% funding, while larger enterprises (aka industry) may be required to co-fund 50% of the project's cost. Proposals should justify the requested budget based on the scope and complexity of the work.
- ✓ **Round 2:** The remaining budget will be allocated based on the outcomes and recommendations from Round 1. Participants in this round will be involved in deploying the more advanced version of the CyberSecDome system.

The Open Call opens in December 2024, with deadlines and evaluation timelines to be presented in detail at the event.

Round	Action	Dates
Round 1	Detailed dates released	Dec 2024
	Submission period	Jan 2025 - Feb 2025
	Selection, contract signature and onboarding	Mar 2025 - Apr 2025
	Project implementation	Apr 2025 - Nov 2025
	Project performance evaluation	Dec 2025
Round 2	Detailed dates released	Aug 2025
	Submission period	Sep 2025 - Oct 2025
	Selection, contract signature and onboarding	Nov 2025 - Dec 2025
	Project implementation	Nov 2025 - Jul 2026
	Project performance evaluation	Aug 2026

*** Final dates are the responsibility of consortium members and may be changed without prior notice.**

The applicants will submit proposals through an online portal, evaluated on innovation, feasibility, and impact. Selected participants will implement CyberSecDome's security solutions, receiving financial and technical support.

After the workshop, the participants will be invited for a coffee break where they will have the chance to discuss on focus topics in more depth.

The target audience

We are pleased to invite you to our upcoming event, specifically tailored for **industry third parties—particularly mid-cap companies and SMEs — operating in the field of Digital Systems and Infrastructures**. The **CyberSecDome Open Call** is designed to engage European companies and institutions committed to addressing significant cybersecurity challenges. This includes both **product developers** and **service providers** in the cybersecurity domain, as well as **end-users** of advanced security resources who aim to protect their digital infrastructure from cyber threats.

The Open Call is particularly suited for:

- **Micro, small, and medium-sized enterprises (SMEs):** Companies developing or using innovative cybersecurity solutions, particularly those looking to integrate AI and VR tools into their security operations.
- **Research institutions:** Organizations specialising in cybersecurity research and innovation, eager to collaborate on testing and refining cutting-edge solutions in real-world scenarios.
- **Public and private sector entities:** Institutions that manage complex digital infrastructures and are interested in enhancing their resilience and security through advanced, AI-driven cybersecurity frameworks.

Registration and contact information

Attending this event is free of charge, however, registration is required. Please register for the event [here](#).

Registration will remain open until November 22nd 2024.

For more information, please contact: info@cybersecdome.eu

Event location

Athens City Centre. Golden Age Hotel (Michalakopoulou 57, Athina 115 28).
